

News Release

TSXV, Tier 1: "NTS"
OTCQX: "NTSFF"

Nanotech at Photonics West in San Francisco

VANCOUVER, British Columbia – January 24, 2018 – Nanotech Security Corp. (TSXV: NTS) (OTCQX: NTSFF), a leading innovator in the research, creation and production of advanced security products for the anti-counterfeiting market, announces Chief Business Development Officer Igi LeRoux and Senior Scientist Mohsen Akhlaghi are participating in the Photonics West Exhibition at the Moscone Center in San Francisco January 27 – February 1, 2018 to showcase the Company's nanotechnology. This bi-annual exhibition follows ODS and is one of the largest photonics technical trade shows in North America.

About Nanotech Security

Nanotech researches, creates and produces nano-optic products that have brand protection and enhancement applications across a wide range of markets including banknotes, tax stamps, secure government documents, commercial branding, and the pharmaceutical industry.

The Company's nano-optic technology employs arrays of billions of nano-indentations that are impressed or embossed onto a substrate material such as polymer, paper, metal, or fabric. By using sophisticated algorithms to direct an electron beam, the Company creates visual images with colour shifting effects such as 3D, perceived movement, and can also display high-definition colours including skin tones, and whites and blacks, which are not possible using holographic technology.

Additional information about Nanotech can be found at the Company's website www.nanosecurity.ca, the Canadian disclosure filings website www.sedar.com or the OTCMarkets disclosure filings website www.otcmarkets.com.
