Nanotech in the Media

VANCOUVER, British Columbia – October 20, 2016 – Nanotech Security Corp. (TSXV: NTS) (OTCQX: NTSFF), announces its founder and CEO, Doug Blakeway, was recently interviewed on a broadcasted BNTV network show. The interview provided Mr. Blakeway with the opportunity to showcase some of the exciting new nano-optical authentication images that are being created using Nanotech's latest technological developments. Persons interested in seeing the video can watch the rebroadcast on BNN October 22nd at 8:00pm EST and October 23rd at 9:30pm EST or access it via <http://www.b-tv.com/nanotech-ep-310/>.

About Nanotech Security

Through its security and surveillance divisions, Nanotech Security Corp. has been a leading innovator in the design and production of advanced banknote and commercial branding security and authentication products. Nanotech's *KolourOptik*® and *Plasmogram*™ products are nanotechnology based optical imaging product platforms originally inspired by the unique optical properties of the iridescent wings of the Blue Morpho butterfly. Our nano-optical products produce intense, high definition optically-variable images and colour-shift optical thin films. Activated by a simple tilt or rotation, with higher resolutions than the best LED-displays, they are ideal for authentication of currency, passports, and identification cards in addition to distinguishing branded goods from counterfeits.

Additional information about Nanotech can be found at the Company's website www.nanosecurity.ca, the Canadian disclosure filings website www.sedar.com or the OTCMarkets disclosure filings website www.otcm Markets.com.
